

Investing

IN SOUTH ASIA

Since 1998 eMi² has been investing in Christian Ministries all over South Asia.

Will you consider investing with us?

“Freely you have received,
freely give.”

eMi² offers non-profit design services to Christian Ministries in South Asia.

This design service provides the expertise and materials you need to plan, order, and express the vision of your development project.

As funds are raised for the development project, we ask you to consider

reinvesting just 1% of the cost of the first phase of new construction back into the ministry of eMi².

Your reinvestment enables other ministries like yours to continue to avail of free design services from eMi².

Join us as we invest in your brother and sister ministries in South Asia.
